

Cooley recommends using only Cooley cleaning and protectant products and assumes no warranty or liability if other than those recommended cleaning products are used. Follow all instructions carefully and if further assistance is required, contact Cooley at 800-992-0072.

Weathertyte® Lite Awning Fabric Maintenance

Routine care is recommended, and certain procedures should be followed. Every 60-180 days, depending on location and environmental conditions, washing with Cooley Clean is recommended to keep dirt, leaves and other debris from accumulating on the surface. A soft bristle brush and Cooley Deep Clean with water may be used for more stubborn areas.

Care should be exercised to not damage the copy or artwork on the fabric. It is also recommended that Cooley Armor be applied after each cleaning using Cooley Deep Clean. This will help in protecting the vinyl graphics from damaging UV rays.

Proper preparation of framework is necessary to ensure material is smooth, free of dirt, rust, and other substances to guard against discoloration.

Cooley Cleaning Products:

For maximum life and performance from Cooley Sign & Awning products, proper maintenance is important. Cooley sign products cleaners and protectants have been developed for use with Cooley flexible sign and awning materials.
